

UNPRECEDENTED VISIBILITY

REGULATED REACH HEALTH MARKETING · MISSISSAUGA, ON

| The Challenge

A high-potential psychotherapy clinic in Mississauga was practically invisible online. The founders were facing a harsh reality: their exceptional clinical skills were bottlenecked by a total lack of organic reach. Year-over-year, their digital footprint was flatlining, leading to severe anxiety over the long-term viability of their practice.

| The Regulated Reach Solution

We executed a ruthless, data-driven SEO takeover. Regulated Reach restructured their digital architecture, targeting high-volume query gaps in the Mississauga region. We didn't just aim for incremental growth; we aimed to dominate the local search ecosystem for mental health services.

| The Grand Result

The growth was explosive. In just three months, Regulated Reach delivered a **greater than 200% year-over-year increase in search impressions** (scaling past 15,600 impressions). We transformed a struggling, invisible practice into the most prominent mental health destination in Mississauga, securing the clinic's financial future.
